

UP LIFT 6 140 HD

Up Lift 6 140 HD is modern mobile platform made of aluminium, which can be a great alternative for traditional scaffoldings and small ladders. It consists of a work platform, a support structure and controls system.

- ✓ Extremely lightweight aluminium construction, ergonomic design and small size allow the device to be used in places inaccessible to standard lifts.
- ✓ The mobile design enables problem-free bypassing of small obstructions and transporting of the machine to the workplace.

Maximum load:
140 kg

Light
construction

Working height:
6 meters

Built-in
charger

Other important features of the Up Lift 6 140 HD are:

- The surface of the stage and the platform made of aluminium sheet
- 2 x electric actuator 2600 N
- Gas spring 1500 N
- 2 x 12 V 33 Ah gel battery
- Self-closing door
- 4 torsion wheels with central locking system
- Safe entrance - step height: 25 cm

SELF-CLOSING COMMUNICATION GATE

It consists of right and left parts. It is equipped with handles and bolts, which attach it to the platform barrier and the springs keeping the gate in the closed position.

CONTROL CASE

It is equipped with an ignition switch with two keys, an emergency button and two buttons "UP/DOWN" to control the movement of the platform.

GAS SPRING

Gas spring with the power of 1500 N is used to support the operation of the electric actuator. It allows to reduce the energy consumption and wear of mechanical components.

Up Lift 6 140 HD	
Type of lift	mechanical
Maximum working height	607 cm
Maximum platform height	407 cm
Maximum load	140 kg
Size of platform	48 x 69 cm
External dimensions	77 x 123 x 190 cm
Kind of wheels	industrial - heavy-duty with enhanced resistance to abrasion
Wheel lock	pedal
Battery	2 x 33 Ah 12 V DC
Machine weight without ballast	174 kg
Ballast weight	4 x 15 kg
Noise	doesn't exceed 70 dB

LOCK HARD
